Pokernow

- Pokernow.club is a free online poker platform
- To start a new session, simply **share the link** to the party with other users.
- They will need to provide a **value for their stack** and **await for the admin** to authorize them
- More Functionalities:
 - Probability of winning
 - Current Hand
 - Video and Voice Chat

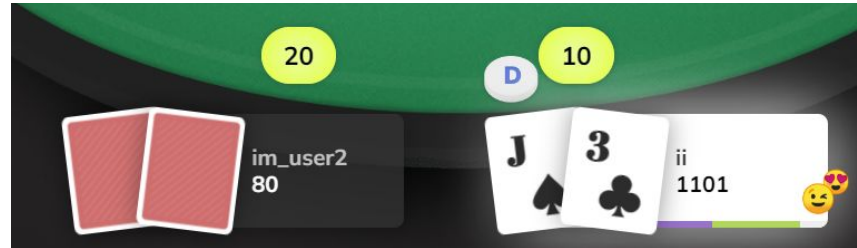

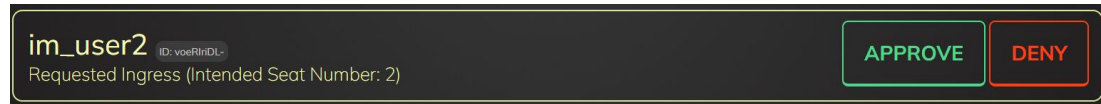

Context

- The application starts off by requesting a username as well as a stack/balance for the given player.

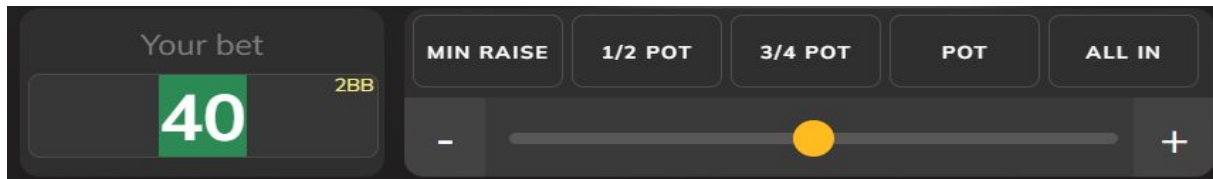

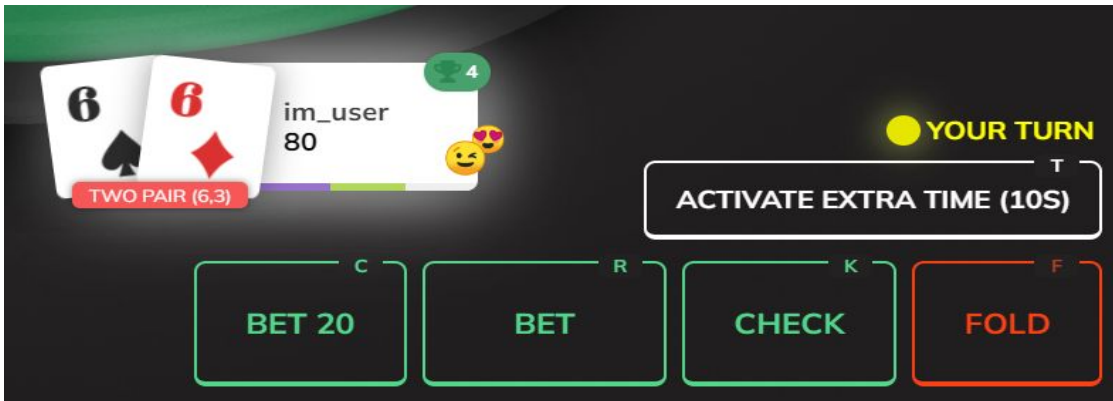

Context

- After creating a new room the user shares the link with his friends which in turn will need to also provide a username and a stack.
- After they have joined, each player awaits for the room owner's permission to sit down.
